

Governor Profile

Name: Claire Pickering

Term of Governance: March 2018 – March 2022

Background

I am a working mum of 4 children and have lived in Linton most of my life.

My children have specific needs, so my free time is usually taken up with various activities to keep them occupied.

On the rare occasion I do get any free time I usually like to spend it reading.

I first became a governor about thirteen years ago when my eldest son started at what was then Linton First School.

Reason for becoming a Governor and Supporting our School:

I initially became a governor all those years ago as I wanted a better understanding of how my child was educated and supported in his learning.

I am still a governor of Linton Primary School today because although it has been through some changes over the years, the ethos of the school has remained the same. Not only are the staff, striving to deliver the best level of education and support they can, they are providing an environment in which the children are being taught to be mindful and supportive of each other. This I think is a fantastic quality that only a small school can offer, and I will continue to give my support for many years to come.
