

Governor Profile

Name: Alexandra Hastie

Term of Governance: 22/10/2018 – 21/10/2022

Background:

I work in finance for an accountancy practice in Morpeth. Though not qualified, I produce accounts for small Limited Companies, Partnerships and Sole Traders. I left school after taking A levels, and started a career in computer programming. In my thirties I decided to further my education and studied for, and attained a diploma in management studies.

My pastimes include reading, walking, and gardening. I love nature, particularly wild flowers and birds and I really enjoy woodland walks.

I moved to Linton from Northamptonshire in 2008 with my husband following his enforced retirement due to ill health. It had always been our plan to move further north so that we were closer to my husband's home roots in Scotland.

Reason for becoming a Governor and Supporting our School:

I would like to give something back to the community in which I now live, but more importantly, I would love to influence young children to enjoy their education, particularly reading and mathematics. I hope that I can help to inspire them to achieve their dreams and to grow into responsible, caring, community minded adults.
