## Línton Prímary School New Whole School Currículum SCIENCE

KS1

	Autumn Term	Spring Term	Summer Term
	Mind Over Matter	<u>Fight for Survival</u>	Incredíble Journeys
1	Looking at overcoming adversity, developing a 'Growth Mindset'. What provides individuals with the motivation and determination to succeed?	Investigating settlements, communities and food chains. What are the characteristics of success and failure?	Taking a look at habitats, migration and nomadic lifestyles. What drives them on?
K.S1	<ul> <li>Begin the process of identifying and naming a variety of common wild and garden plants, including deciduous and evergreen trees.</li> <li>Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.</li> <li>Find out about and describe the basic needs of animals, including humans, for survival (water, food and air).</li> <li>Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</li> </ul>	<ul> <li>Identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals.</li> <li>Identify and name a variety of common animals that are carnivores, herbivores and omnivores.</li> <li>Explore and compare the differences between things that are living, dead, and things that have never been alive</li> <li>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants and how they depend on each other.</li> <li>Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</li> </ul>	<ul> <li>Identify and describe the basic structure of a variety of common flowering plants, including trees.</li> <li>Describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets).</li> <li>Identify and name a variety of plants and animals in their habitats, including micro-habitats.</li> </ul>
2	<b>UNRNOWN UNIVERSE</b> Space exploration, breakthroughs and new discoveries. <i>How are we changing the world</i> ?	Heroes and Villains Taking a closer look at making and breaking the rules. Who's got talent and influence?	<u>The Greatest Gift</u> Discussing and debating the impact of talent. What impact will you have on the world?
KS1	<ul> <li>Begin the process of observing changes associated with phases of the moon including tides.</li> <li>Begin the process of observing and describing weather, associated with the seasons and how day length varies.</li> <li>Begin to note changes in the trees in our immediate environment associated with the changing of the seasons.</li> <li>Observe and describe how seeds and bulbs grow into mature plants.</li> <li>Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.</li> </ul>	<ul> <li>Distinguish between an object and the material from which it is made. Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock.</li> <li>Describe the simple physical properties of a variety of everyday materials. Compare and group together a variety of everyday materials on the basis of their simple physical properties.</li> <li>Identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses.</li> <li>Find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.</li> </ul>	<ul> <li>Describe the simple physical properties of a variety of everyday and <i>innovative</i> materials.</li> <li>Compare and group together a variety of everyday and <i>innovative</i> materials on the basis of their simple physical properties.</li> <li>Consider how some materials might be suitable / unsuitable for a particular purpose.</li> <li>Consider how using combinations of materials could affect suitability for purpose.</li> <li>Explore the creation and discovery of new innovative materials.</li> </ul>

	<u>Seasons of Change</u>	Home Grown	<u>Hídden World</u>
3	Charting changes in the environment and over time. Exploring how to cope with change. How can we use change to our advantage?	Influential individuals from our region who have changed our lives locally, nationally and globally. What are the effects of innovation?	Using charts, maps and information to establish areas that remain enigmatic. What lies in wait - is still to come?
K.S1	<ul> <li>Begin to note how seasonal change affects our immediate, local and wider environment.</li> <li>Begin the process of identifying and naming a variety of common wild and garden plants, including deciduous and evergreen trees.</li> <li>Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.</li> <li>Find out about and describe the basic needs of animals, including humans, for survival (water, food and air).</li> <li>Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</li> </ul>	<ul> <li>Identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals.</li> <li>Identify and name a variety of common animals that are carnivores, herbivores and omnivores.</li> <li>Explore and compare the differences between things that are living, dead, and things that have never been alive</li> <li>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants and how they depend on each other.</li> <li>Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</li> </ul>	<ul> <li>Identify and describe the basic structure of a variety of common flowering plants, including trees.</li> <li>Describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets).</li> <li>Identify and name a variety of plants and animals in their habitats, including micro-habitats.</li> </ul>
4	<u>Secrets of the Deep</u> Examining innovation underground and underwater. What will the impact of new discoveries be?	The Weird and the Wonderful Looking at civilisations and discoveries that have surprised, astounded and amazed. What is the value of having an open mind?	<u>AWESOME EXPLOYERS</u> Considering who we remember and why. Delving into methods of recording. What are the common characteristics of adventure?
KS1	<ul> <li>Begin the process of observing changes associated with temperature / tide etc.</li> <li>Begin the process of observing and describing weather, associated with the seasons and how day length varies.</li> <li>Observe and describe how seeds and bulbs grow into mature plants.</li> <li>Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.</li> </ul>	<ul> <li>Distinguish between an object and the material from which it is made. Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock.</li> <li>Describe the simple physical properties of a variety of everyday materials. Compare and group together a variety of everyday materials on the basis of their simple physical properties.</li> <li>Identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses.</li> <li>Find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.</li> </ul>	<ul> <li>Describe the simple physical properties of a variety of everyday and <i>innovative</i> materials.</li> <li>Compare and group together a variety of everyday and <i>innovative</i> materials on the basis of their simple physical properties.</li> <li>Consider how some materials might be suitable / unsuitable for a particular purpose.</li> <li>Consider how using combinations of materials could affect suitability for purpose.</li> <li>Explore the creation and discovery of new innovative materials.</li> </ul>

	Autumn Term <u>Mínd Over Matter</u>	Spring Term <u>Fight for Survival</u>	Summer Term Incredíble Journeys
1	Looking at overcoming adversity, developing a 'Growth Mindset'. What provides individuals with the motivation and determination to succeed?	Investigating settlements, communities and food chains. What are the characteristics of success and failure?	Taking a look at habitats, migration and nomadic lifestyles. What drives them on?
Lower KS2 Upper KS2	<ul> <li><u>Forces</u></li> <li>Compare how things move on different surfaces. <u>Forces</u></li> <li>Explain that unsupported objects fall towards the Earth because of the force of gravity activity acting between the Earth and the falling object.</li> <li>Identify the effects of air resistance, water resistance and friction that act between moving surfaces.</li> <li>Recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.</li> <li><u>Animals Including Humans</u></li> <li>Identify that animals, including humans, need the right types and amount if nutrition, and that they cannot make their own food; they get nutrition from what they eat.</li> <li>Identify that humans and some other animals have skeletons and muscles for support, protection and movement. <u>Animals Including Humans</u></li> <li>Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood.</li> <li>Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function.</li> <li>Describe the ways in which nutrients and water are transported within animals, including humans.</li> </ul>	<ul> <li><u>Rocks</u></li> <li>Compare and group different kinds of rocks on the basis of their appearance and simple physical properties.</li> <li>Describe in simple terms how fossils are formed when things that have lived are trapped within rock.</li> <li>Recognise that soils are made from rocks and organic matter. Evolution and Inheritance</li> <li>Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago.</li> <li>Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents.</li> <li>Identify how animals and plants are adapted to suit their environment in different ways and that adaption ay lead to evolution.</li> <li><u>Animals Including Humans</u></li> <li>Describe the simple functions of the basic parts of the digestive system in humans.</li> <li>Identify the different types of teeth in humans and their simple functions.</li> <li>Construct and interpret a variety of food chains, identifying producers, predators and prey.</li> <li><u>Animals Including Humans</u></li> <li>Describe the changes as humans develop to old age.</li> </ul>	<ul> <li>Sound</li> <li>Identify how sounds are made, associating some of them with something vibrating.</li> <li>Recognise that vibrations from sounds travel through a medium to the ear.</li> <li>Find patterns between the pitch of a sound and features of the object that produced it.</li> <li>Find patterns between the volume of a sound and the strength of the vibrations that produced it.</li> <li>Recognise that sounds get fainter as the distance from the sound source increases.</li> <li>Plants</li> <li>Identify and describe the functions of different parts of flowering plants: roots, stem/ trunk, leaves and flowers.</li> <li>Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant.</li> <li>Investigate the way in which water is transported within plants.</li> <li>Explore the part that flowers play in the life-cycle of flowering plants, including pollination, seed formation and seed dispersal. Earth and Space</li> <li>Describe the movement of the Earth, and other planets, relative to the Sun in the solar system.</li> <li>Describe the Sun, Earth, and Moon as approximately spherical bodies.</li> <li>Use the idea of the Earth's rotation to explain day and night and the apparent movement of the Sun across the sky.</li> </ul>

<u>Unknown Universe</u>	<u>Heroes and Villains</u>	<u>The Greatest Gift</u>
	a closer look at making and breaking the rules. Who's got and influence?	Discussing and debating the impact of talent. What impact will you have on the world?
<ul> <li>Notice that some forces need contact between two objects, but magnetic forces can act at a distance.</li> <li>Observe how magnets attract or repel each other and attract some materials and not others.</li> <li>Compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials.</li> <li>Describe magnets as having two poles.</li> <li>Predict whether two magnets will attract or repel each other, depending on which poles are facing.</li> <li>Light</li> <li>Recognise that they need light in order to see things and that dark is the absence of light.</li> <li>Notice that light is reflected from surfaces.</li> <li>Recognise that light from the sun can be dangerous and that there are ways to protect their eyes.</li> <li>Recognise that light appears to travel in straight lines.</li> <li>Use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye.</li> <li>Explain that we see things because light travels from light sources to our eyes or form light sources to objects and that objects are seen because they give out or reflect light into the eye.</li> <li>Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</li> </ul>	knowledge of solids, liquids and gases to decide how tures might be separated, including through filtering, sieving levaporating. e reasons, based on evidence from comparative and fair tests, the particular uses of everyday materials, including metals, od and plastic. nonstrate that dissolving, mixing and changes of state are ersible changes. lain that some changes result in the formation of new terials, and that this kind of change is not usually reversible, uding changes associated with burning and the action of acid bicarbonate of soda. <u>ctricity</u> ntify common appliances that run on electricity. Instruct a simple series electrical circuit, identifying and naming basic parts, including cells, wires, bulbs, switches and buzzers. ntify whether or not a lamp will light in a simple series circuit, ed on whether or not the lamp is part of a complete loop with attery. Recognise that a switch opens and closes a circuit and bociate this with whether or not a lamp lights in a simple series	<ul> <li>Living Things and Their Habitats</li> <li>Recognise that living things can be grouped in a variety of ways.</li> <li>Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment.</li> <li>Recognise that environments can change and that this can sometimes pose dangers to living things.</li> <li>Living Things ant Their Habitats</li> <li>Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.</li> <li>Describe the life process of reproduction in some plants and animals.</li> </ul>

	<u>Seasons of Change</u>	Home Grown	<u>Hídden World</u>
3	Charting changes in the environment and over time. Exploring how to cope with change. How can we use change to our advantage?	Influential individuals from our region who have changed our lives locally, nationally and globally. <i>What are the effects of innovation?</i>	Using charts, maps and information to establish areas that remain enigmatic. What lies in wait - is still to come?
Lower KS2 Upper KS2	<ul> <li>Animals Including Humans</li> <li>Identify that animals, including humans, need the right types and amount if nutrition, and that they cannot make their own food; they get nutrition from what they eat.</li> <li>Identify that humans and some other animals have skeletons and muscles for support, protection and movement. Animals Including Humans</li> <li>Describe the simple functions of the basic parts of the digestive system in humans.</li> <li>Identify the different types of teeth in humans and their simple functions.</li> <li>Construct and interpret a variety of food chains, identifying producers, predators and prey.</li> <li>Animals Including Humans</li> <li>Describe the changes as humans develop to old age. Animals Including Humans</li> <li>Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood.</li> <li>Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function.</li> <li>Describe the ways in which nutrients and water are transported within animals, including humans. Earth and Space</li> <li>Describe the movement of the Earth, and other planets, relative to the Sun in the solar system.</li> <li>Describe the Sun, Earth, and Moon as approximately spherical bodies.</li> <li>Use the idea of the Earth's rotation to explain day and night and the apparent movement of the Sun across the sky.</li> </ul>	<ul> <li>Plants</li> <li>Identify and describe the functions of different parts of flowering plants: roots, stem/ trunk, leaves and flowers.</li> <li>Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant.</li> <li>Investigate the way in which water is transported within plants.</li> <li>Explore the part that flowers play in the life-cycle of flowering plants, including pollination, seed formation and seed dispersal.
